SUMMARY

Specializes in statistical consulting and impact-oriented collaboration. Experienced in defining ambiguous business problems and developing data- and AI-driven solutions.

EXPERIENCE

Principal Investigator, Impact-Centric Consulting Tool

Cal Poly, San Luis Obispo | 2025 – Present

- Developed a novel consulting tool that helps statisticians maximize and communicate their impact.
- Coordinated a full research cycle: literature review, study design, data collection, mixed-methods analysis, journal submission.
- Presented an award-winning talk at the 2026 Joint Statistical Meetings and designed an interactive short course.

Data Analyst Intern, Cross-Cultural Heteronormativity

American Institute of Behavioral Research & Technology | 2024 – 2025

- Applied post-stratification and nonlinear regression methods to identify trends in global human behavior.
- Restructured and analyzed a large dataset with 1.5 million observations and 35 variables, spanning 88 countries.
- Presented findings to senior researchers using interactive reports.

Research Assistant, Various Publications

Cal Poly, San Luis Obispo | 2022 – 2026

- [Chance, Kerr, Palmer \(2024\)](#) & [Abrash, ..., Palmer, et al. \(2026\)](#).

LEADERSHIP

Director and Committee Chair, Board of Directors

Associated Students, Inc. | 2023 – 2026

- Chaired two strategic initiative task forces, advising the board on policy and a \$20M nonprofit merger.
- Inaugural winner of the Use Your Voice Scholarship (2023) and winner of the Champion Award (2026).

EDUCATION

Master of Science in Statistics

2025 – Oct 2026

Cal Poly, San Luis Obispo

Bachelor of Science in Statistics

2022 – Dec 2025

Cal Poly, San Luis Obispo

ACTIVITIES

Workshop: Democratizing Data For Nonprofits. Taught local nonprofits how to collect data and connect a dashboard.

LIFT: AI-Powered Nonprofit Operations Tool. Built a web app to help a fictitious nonprofit identify more efficient service reporting workflows.

ASA DataFest. 48-hour, data analysis marathon. Won Best Visualization (2024) and Best Use of External Data (2025).

Interdisciplinary statistical consulting. Topics include health, higher education, agriculture.

TECHNICAL SKILLS

Dashboards; Data Visualization; R & Shiny; SAS; Python; Excel; Git; Machine Learning; Experimental Design; Salesforce Agentblazer; AI and Coding Agent Fluency.
